

# Bulletin Board Kit - Blood Stream Infections (BSI)

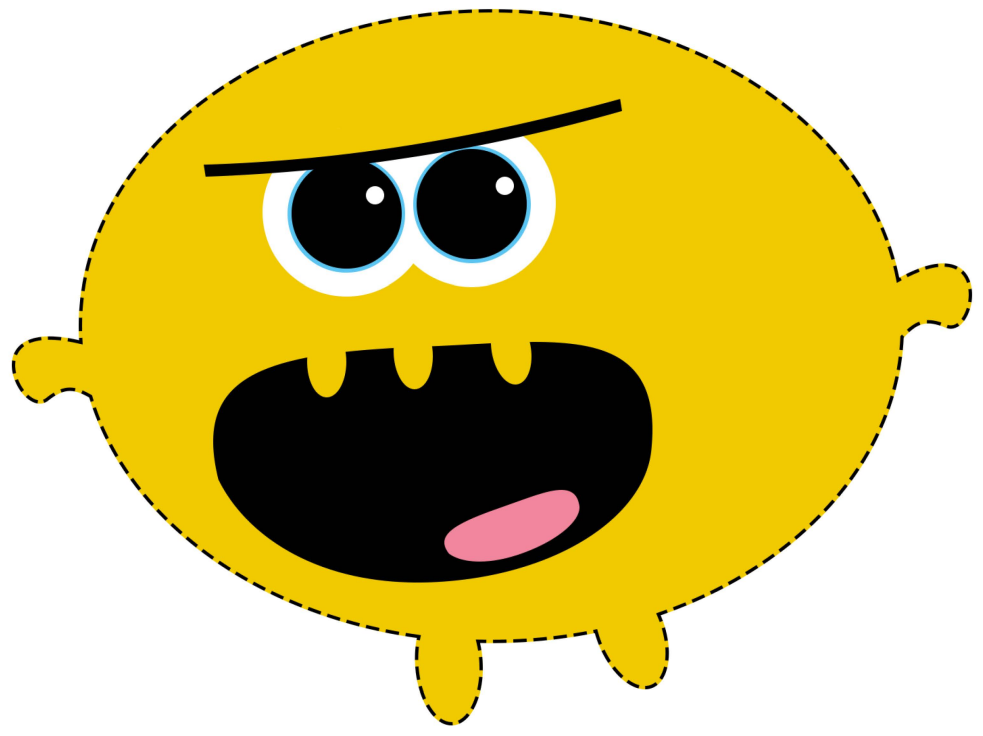

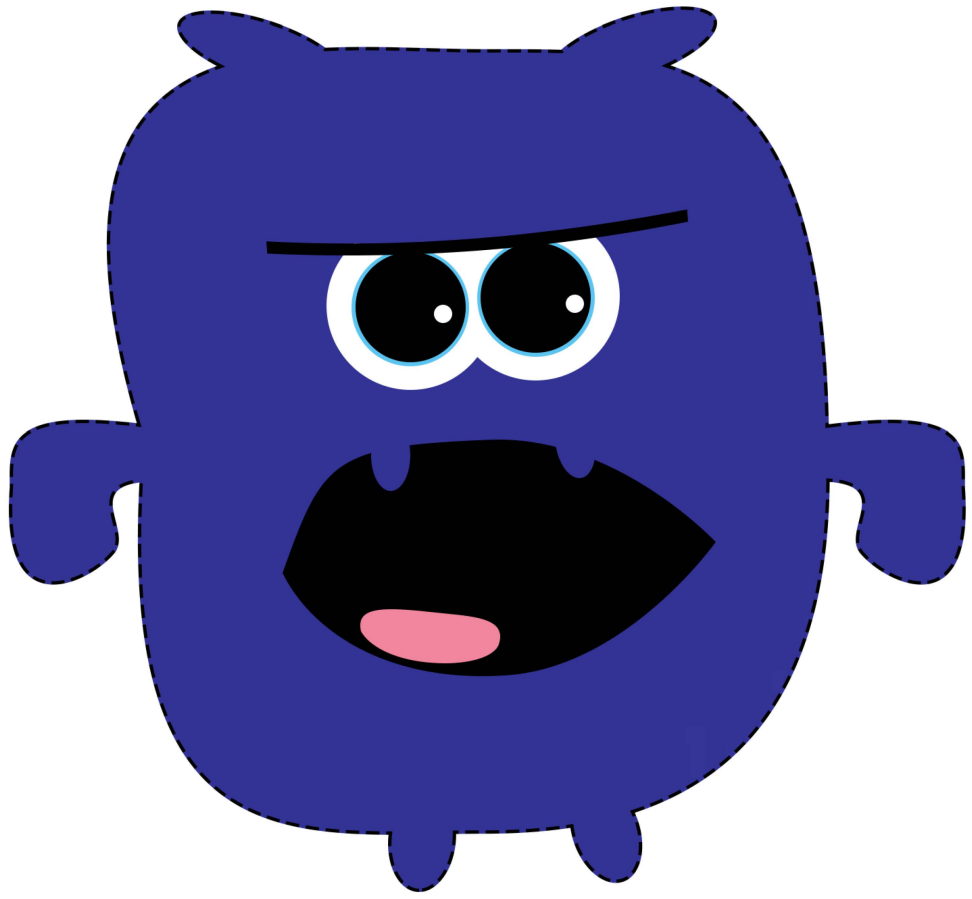

## How to use your Bulletin Board Kit

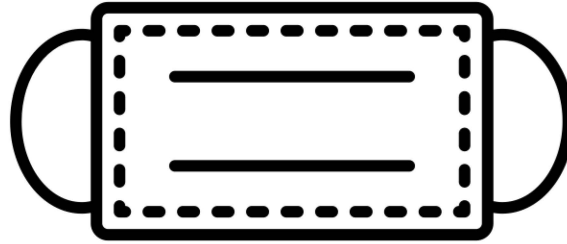

1. Look at the Display Board Idea
2. Ensure your kit has all the needed pieces
3. Cut out the pieces
4. Invite a patient to assist you with creating the display
5. Engage patients by offering them an icon to move along the board toward their goal
6. Make sure the display is in an area where patients can see it
7. Consider adding a folder with handouts patients can take with them. For example: Hand Hygiene Tips for Patients, How Do I Stay Infection Free, and others available on the Network website.
8. Take a photo and send it to the Network!
