## **Resident Bed Bath and Perineal Care Competency**

|     | <b>Steps</b><br>*Allow resident to assist as able                                    | Passing | Additional Training Needed |  |  |  |
|-----|--|---------|----------------------------|--|--|--|
| 1.  | Explain procedure to resident and offer  |         |                            |  |  |  |
|     | resident urinal or bedpan before beginning   |         |                            |  |  |  |
|     | bath. Allow for privacy.   |         |                            |  |  |  |
| 2.  | Fill bath basin with warm water. Ensure  |         |                            |  |  |  |
|     | resident is comfortable with water   |         |                            |  |  |  |
|     | temperature.   |         |                            |  |  |  |
| 3.  | Perform hand hygiene and put on gloves.  |         |                            |  |  |  |
| 4.  | Fold washcloth and wet with warm water.  |         |                            |  |  |  |
|     | Gently wash both eyes from inner to outer  |         |                            |  |  |  |
|     | corners. Use a different part of the   |         |                            |  |  |  |
|     | washcloth for each eye.  |         |                            |  |  |  |
| 5.  | Wet washcloth and apply soap - if this is  |         |                            |  |  |  |
|     | resident preference. Wash, rinse, and pat  |         |                            |  |  |  |
|     | dry the face, ears, behind ears, and neck.   |         |                            |  |  |  |
| 6.  | Remove resident's gown or clothing. Place  |         |                            |  |  |  |
|     | towel under the arm. Wash, rinse, and pat  |         |                            |  |  |  |
|     | dry the hand, arm, underarm, and shoulder.   |         |                            |  |  |  |
|     | Repeat the steps with the other arm.   |         |                            |  |  |  |
| 7.  | Place a towel over the resident's chest and  |         |                            |  |  |  |
|     | abdomen area. Lower the bath blanket to  |         |                            |  |  |  |
|     | the resident's waist.  |         |                            |  |  |  |
| 8.  | Lift towel and wash, rinse, and pat dry the  |         |                            |  |  |  |
|     | resident's chest and abdominal area. Pull up   |         |                            |  |  |  |
|     | bath blanket and remove the towel.   |         |                            |  |  |  |
| 9.  | Uncover resident and place the towel under   |         |                            |  |  |  |
|     | leg. Wash, rinse, and pat dry the resident's leg and foot. Repeat the steps with the |         |                            |  |  |  |
|     | other leg and foot.  |         |                            |  |  |  |
| 10  | Change basin water. Removes gloves.  |         |                            |  |  |  |
| 10. | Perform hand hygiene and put on new  |         |                            |  |  |  |
|     | gloves.  |         |                            |  |  |  |
| 11. | Assist resident as needed to spread legs and   |         |                            |  |  |  |
|     | lift their knees if this is possible.  |         |                            |  |  |  |
| 12. | Wet and soap a folded washcloth.   |         |                            |  |  |  |
|     |  |         |                            |  |  |  |
|     | Catheter Care  |         |                            |  |  |  |
| 13. | If your resident has a catheter, check for   |         |                            |  |  |  |
|     | any irritation, leaking, or secretions. Gently                                       |         |                            |  |  |  |
|     | wipe 4 inches of catheter from the meatus  |         |                            |  |  |  |
|     | outward.   |         |                            |  |  |  |

| <b>Steps</b><br>*Allow resident to assist as able   | Passing | Additional Training Needed |  |  |  |
|---|---------|----------------------------|--|--|--|
| Perineal Care:  |         |                            |  |  |  |
| 14. Wipe from front to back and from the center of the perineum to the thighs. If the washcloth is visibly soiled, change to a new washcloth.   |         |                            |  |  |  |
| Females:  |         |                            |  |  |  |
| <ul> <li>Separate the labia and wash the<br/>urethral area first. Wash between and<br/>outside the labia in downward strokes.<br/>Alternate from side to side and moving<br/>outward to the thighs. Use different<br/>parts of the washcloth for each stroke.</li> </ul>  |         |                            |  |  |  |
| Males:  |         |                            |  |  |  |
| <ul> <li>Pull back the foreskin if your resident is<br/>uncircumcised. Beginning with the<br/>urethra, wash and rinse the tip of the<br/>penis using circular motions. Continue<br/>washing downwards to the scrotum and<br/>inner thighs. Rinse off the soap and dry<br/>thoroughly. Return the foreskin over<br/>the tip of the penis.</li> </ul> |         |                            |  |  |  |
| 15. Change basin water. Removes gloves.<br>Perform hand hygiene and put on new<br>gloves.   |         |                            |  |  |  |
| <ul> <li>16. Use a clean washcloth to rinse area<br/>thoroughly in the same sequence as<br/>washing occurred. Gently pat the area dry.</li> <li>17. Assist your resident to a lateral position,</li> </ul>  |         |                            |  |  |  |
| facing away from you.   |         |                            |  |  |  |
| <ol> <li>Wet and soap a clean washcloth. Clean the<br/>anal area from front to back. Rinse and pat<br/>dry thoroughly.</li> </ol>   |         |                            |  |  |  |
| <ol> <li>Change basin water. Removes gloves.<br/>Perform hand hygiene and put on new<br/>gloves.</li> </ol>   |         |                            |  |  |  |
| 20. Use a clean washcloth and towel to wash,<br>rinse and pat dry from neck to buttocks.<br>Assist your resident to return to the supine<br>position.   |         |                            |  |  |  |
| 21. Perform hand hygiene and put on new gloves.   |         |                            |  |  |  |
