

Transplant Work-Up Appointments Checklist

This checklist includes a comprehensive list of tests and procedures you may be asked to complete so that your transplant center may assess your overall health as part the kidney transplant work-up process. Use this checklist as a way to guide you through your work-up appointments. Discuss with staff members at your transplant center if there are any different or additional tests or procedures that you need to complete for your evaluation. The team at your transplant center will help you arrange some of these appointments.
