

What Kind of Mask Should I Be Wearing?

N95

This mask should be worn when caring for a COVID-19 patient or a potential COVID-19 patient.

It may be covered with a face shield if performing procedures that could cause splashes or sprays, as well as aerosol procedures.

Surgical

This mask should be worn when caring for any COVID-19 patient or a potential COVID-19 patient.

Homemade Cloth

This mask should be worn by all employees in your facility not directly related to patient care and in public as a precaution of being a potential carrier of the virus.

This material was prepared by Qsource, the Quality Innovation Network-Quality Improvement Organization (QIN-QIO) for Indiana under a contract with the Centers for Medicare & Medicaid Services (CMS), a federal agency of the U.S. Department of Health and Human Services.
