

Chronic Kidney Disease Crossword Puzzle

ACROSS

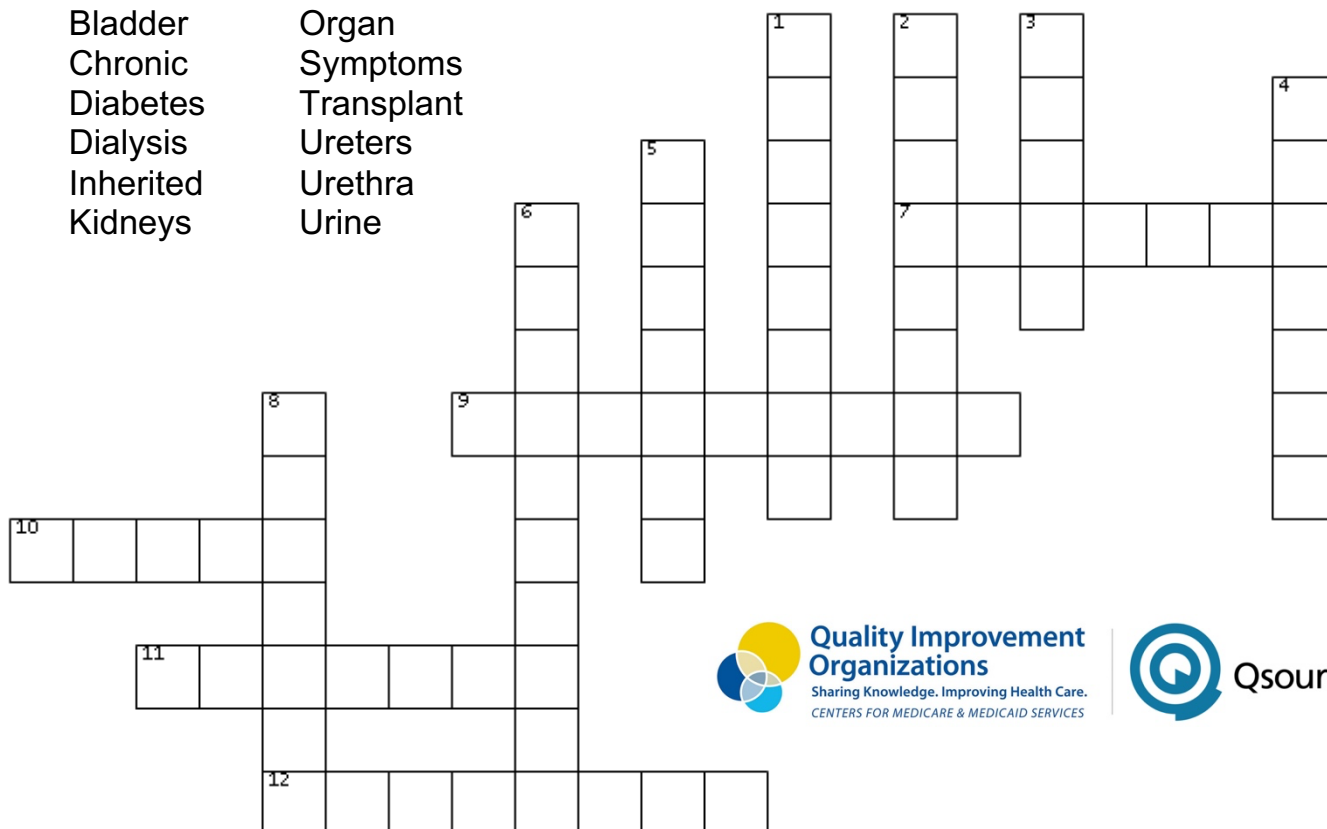

7. An organ in your body that holds urine produced by kidneys.
9. Something you were born with and get from your parents, such as hair and eye color.
10. A yellowish liquid made by the kidneys to remove waste products and extra water from your body.
11. A tube that carries urine out of the bladder when you go to the bathroom.
12. A change in your body that alerts you that something is wrong. It may mean you have an illness or disease.

DOWN

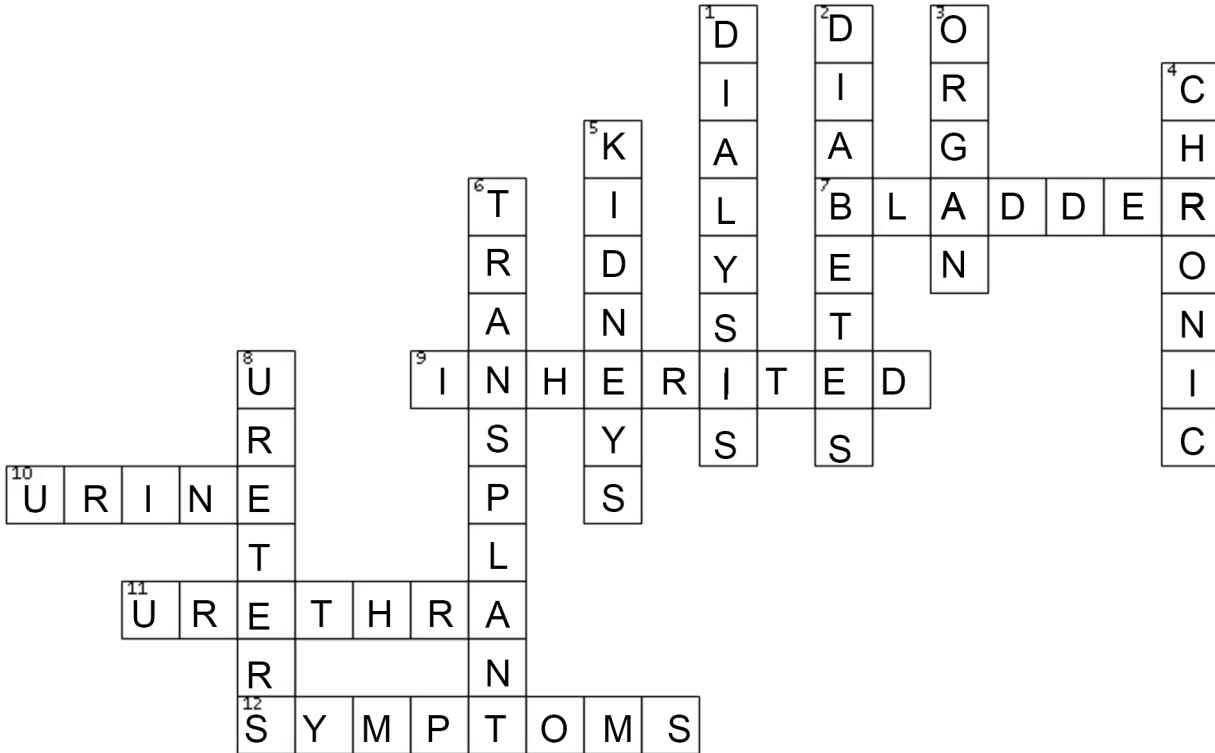

1. A procedure that filters waste products and extra water from your blood. It is one of the main treatments for kidney failure.
2. A disease that causes blood sugar levels to go up.
3. A body part that does an important job: i.e., the heart, kidneys, and liver are all ____.
4. Constant, long-term, does not go away.
5. Two bean-shaped organs in your body. They clean the blood, help make red blood cells, and keep bones healthy.
6. An operation to put a healthy organ in your body.
8. Two tubes that carry urine from the kidney to the bladder.
